

SUNDAY SCHOOL TAKE HOME PAGE

To parents:

This page lets you know what your child learned in Sunday school today. In addition, you will find this week's memory verse, a suggested activity, and a short prayer to reinforce the lesson. Being involved and interacting with your child can be very rewarding for both of you.

What we learned:

Today, we learned that things such as pencils, watches and dictionaries had a creator: which was man. So it is with the heavens and the earth, which God created. It would be silly to think that a watch would come together if we randomly threw gears and springs into the air. It's just as silly to think that the heavens and the earth came together by chance or a big bang. There is too much order and design in the world even to consider that it all came together by accident. We should thank God and worship Him for creating us and the wonderful world in which we live. (Scripture used: Genesis 1:1-2:3)

Memory Verse:

"In the beginning God created the heaven and the earth." Genesis 1:1

Practice this verse several times with your child during the week. This will not only help him or her remember the verse, it will also help to reinforce what he or she learned during class.

Suggested Parent/Child Activity:

Play the following game with your child to reinforce what he or she has learned about the seven days of creation. The parent calls out a day, one through seven, and the child calls out what God created or did on that day. To make it more interesting and a little more difficult call the dates out in a random order.

Daily Prayer:

Dear Lord, help us appreciate everything that You have created in us and for us in this beautiful world. May we lead lives that will bring You glory. We thank You that you are a God of order and not chaos. We rejoice in Your power and are blessed to be part of Your creation. We look forward to the day that we can enter the gates of Heaven, behold its splendor and worship You for eternity.
